

This is a partial, and by no means exhaustive, list of media organizations that host journalism students as interns. Those with an asterisk near them are local and host interns in the fall and spring and summer; the others primarily do summer internships. To investigate these do a Google search of the organization's name and the word "internship" and the year, E.g. "The Tri-City Herald, internships, 2018." I also have listed at the end of this journalism internship and job hosting sites. Any questions about these listings, please make an appointment with the School of Journalism Coordinator for Internships and Career Counseling by emailing rshorton@email.arizona.edu.
